

KATE SOBREMONTE

Full Stack Developer · BSIS Student · Cloud, DevOps, Cybersecurity & AI Automation

Dasmariñas, Calabarzon, Philippines · sobremontekate25@gmail.com · linkedin.com/in/kate-sobremonte-3b5b48424 · github.com/SobremonteKate

SUMMARY

Full stack developer with 4+ years of freelance experience delivering 10+ client projects using JavaScript, React, Node.js, and MySQL. Built and deployed a production laundry management system (Melaundry) serving real users. Cybersecurity-certified (Cisco) with skills in cloud deployment, DevOps, and AI automation. Consistent Dean's Lister pursuing BS Information Systems (expected 2027).

EXPERIENCE

Web Developer & Graphic Designer

2020 – Present · Remote

Self Employed, Freelance

- Delivered 10+ client projects from intake to launch, building responsive web applications with JavaScript, React, Node.js, and MySQL while managing scope, timelines, and client communication.
- Designed logos, banners, and marketing graphics using Adobe Photoshop, strengthening client brand identity and supporting product launches.
- Managed full project lifecycle including requirements gathering, REST API integration, Git version control, and deployment.

Admissions Office Intern

2023 · On-site

Emilio Aguinaldo College - Cavite

- Processed 100+ student applications and verified admission documents, ensuring accuracy and confidentiality of records.
- Organized and maintained student files, reducing retrieval time and supporting smooth admissions operations.
- Provided front-desk and administrative support to students and staff, resolving inquiries and improving service flow.

PROJECTS

Melaundry

React, Node.js, MySQL, REST API

Full stack laundry shop management system in production use. Handles order tracking, customer management, and reporting for local laundry businesses.

Bouchique

Next.js, React, Tailwind CSS, GSAP

Animated portfolio website with WebGL effects, responsive design, and smooth scroll interactions.
